BURG-WÄCHTER Smart Home Security

Your security. Anytime and anyplace.

Your home is a place of refuge, a place of security. You decide who is allowed into your house or flat – and who is not. Burglars intrude into this private sphere and in doing so destroy the sense of security.

A smart home alarm system can considerably increase the security within your own four walls. The installation required is not difficult either. BURGsmart PROTECT allows you to control and monitor all features using the free secuENTRY KeyApp for iOS and Android. An alarm control centre is not required due to the cloud connection.

Alarm components and video cameras detect break-in attempts at doors and windows or potential hazards such as water intrusion. It makes no difference whether you are at home or not. The secuENTRY KeyApp allows you to receive messages wherever you may be. A further advantage: You can always expand the smart alarm system and adapt it to a new living environment.

01 02
03

- 01 Water: warns of water ingress
- 02 Contact: registers attempts to open windows and doors
- 03 Plug: turns every socket into a smart socket
- 04 Motion: motion detector for indoor areas
- 05 Noise: alarm siren with up to 90 decibels

04 05

ALWAYS THE SAFE CHOICE:

BURGsmart PROTECT.

BURGSmart PROTECT in figures.

0

€

... cost for the secuENTRY KeyApp and BURGcam App

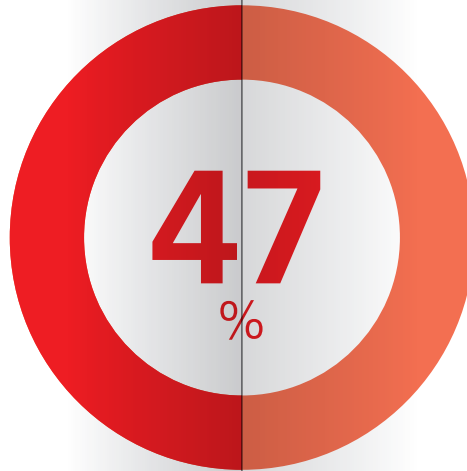

No hidden costs: The apps for our BURGSmart PROTECT and BURGcam systems can be used for control and monitoring free of charge.

... send burglars running for the hills

The Noise alarm siren has a maximum volume of 90 decibels. This is equivalent to the noise of a pneumatic hammer at a distance of ten metres.

90

decibels

An unlimited number of BURGSmart PROTECT devices

can be integrated into the security network and networked with one another.

You can combine the BURGSmart PROTECT sensors with BURGcam video cameras for additional security. This allows you to see live, no matter where you are, who is standing in front of your entrance door or on your property.

+

... of all burglary attempts fail.

In Germany, almost half of all burglaries were unsuccessful in 2020. Most important reason: properly secured houses and flats! BURGSmart PROTECT and BURGcam will ensure the essential level of security.

... the range of the Motion motion detector.

This provides for surveillance of large rooms, company premises and offices.

metres

Access from anywhere in the world. Easy installation.

The cloud connection

You will always have your BURGsmart PROTECT alarm system to hand. All the components can be conveniently operated via smartphone using the free secuENTRY KeyApp for iOS and Android. Thanks to the integration of the sensors in the Smart Cloud, you have access to your alarm system at any time and from anywhere. All you need for installation is a WiFi connection.

The secuENTRY KeyApp

A multitalent for your security: The secuENTRY KeyApp allows you to conveniently operate not only your BURGsmart PROTECT smart home alarm system, but also many other smart products from the BURG-WÄCHTER range. From the 4-in-1 camera BURGcam LIGHT and the secuENTRY range of smart locks through to the video doorbell Door eGuard DG8500 and parcel box eBoxx EASY+. Just one app for your modern complete security package.

Everything in view: The free BURGcam app allows you to check via smartphone whether everything is in order at home. This is possible thanks to remote access to the video cameras.

Smart
Cloud

No matter where you are:
Conveniently operate your alarm
system using the secuENTRY
KeyApp. The scenario function
of the Plug WiFi socket is also
controlled via the app.

secuENTRY KeyApp and
BURGcam App: free of charge
for iOS and Android in your
respective store.

BURGsmart PROTECT

Motion 2012

WiFi PIR motion detector with temperature and air humidity sensor

- operation with 2x CR123A batteries or micro USB cable + power supply unit (power supply unit not included)
- compatible with 2.4 GHz WiFi (IEEE 802.11 b/g/n)
- an internet connection is required for operation
- anti-tamper manipulation protection
- can be used alone or in conjunction with BURGsmart PROTECT devices

Motion 2012

Noise 2162

WiFi alarm siren with temperature and air humidity sensor

- operation with 2x CR123A batteries or micro USB cable + power supply unit (power supply unit not included)
- choose from 18 sounds, volume up to 90 dB
- compatible with 2.4 GHz WiFi (IEEE 802.11 b/g/n)
- an internet connection is required for operation
- can be used alone or in conjunction with BURGsmart PROTECT devices

Noise 2162

Plug 2142

Wall socket adapter

- can be operated manually or via remote control
- for sockets in accordance with EU standard
- power connections up to 2300 W
- manual or scenario (lamp, TV) control
- measures power consumption

Plug 2142

THE NEW SMART ALARM SYSTEM

Protecting your home has never been easier: All BURGsmart PROTECT alarm system components are ready for immediate use.

The alarm siren as well as motion or contact detectors and all other components are registered directly in the home WiFi via the secuENTRY KeyApp. All devices are connected to your smartphone at all times thanks to cloud connection. Advantage: The alarm system can be controlled from anywhere in the world via the app.

Water 2062

WiFi water penetration detector

- operation with 2x AA LR6 1.5 V batteries, up to three years of standby operation
- installation without screws
- compatible with 2.4 GHz WiFi (IEEE 802.11 b/g/n)
- an internet connection is required for operation
- can be used alone or in conjunction with BURGsmart PROTECT devices

Water 2062

Contact 2032

WiFi contact sensor door & window

- operation with 2x AA LR6 1.5 V batteries, up to three years of standby operation
- installation without screws
- compatible with 2.4 GHz WiFi (IEEE 802.11 b/g/n)
- an internet connection is required for operation
- can be used alone or in conjunction with BURGsmart PROTECT devices

Contact 2032

Your secure Smart Home.

Front door, windows, living room, patio, bedrooms:

Find out where BURGsmart PROTECT and BURGcam can be put to optimal use. You can access all components via the Smart Cloud at any time. You will also be informed immediately if there is a risk of burglary or water damage in your home.

WiFi socket adapter

Make it look like someone is home. The Plug 2142 WiFi socket outlet does just that. Switch the TV sets or lamps on and off and in doing so simulate your presence at home. It is also possible to programme control an individual scenario in addition to manual switching on and off.

Motion detector

If uninvited guests are in the house, they will be detected by the Sensor Motion 2012. A push message will be sent to you immediately.

WiFi alarm siren

The Noise 2162 will sound the alarm with a maximum of 90 decibels in an emergency. Simultaneously you will be informed by push message when motion or contact detectors are triggered.

Contact detectors

If intruders pry open windows or a door, the magnetic connection on the Contact 2032 sensor will be broken. A push message will be sent to you immediately. If the Noise 2162 is installed, the alarm will sound.

WiFi camera Indoor & Outdoor

The BURGcam Bullet 3040 boasts an IP67 protection class for indoor and outdoor use. Features backlight compensation and 30-metres infrared range. Access via BURGcam app or web browser.

WiFi camera with LED white light

The BURGcam LIGHT 3010 combines four security products in one: 15 watt outdoor light with motion detector, video monitoring and intercom system.

Water detector

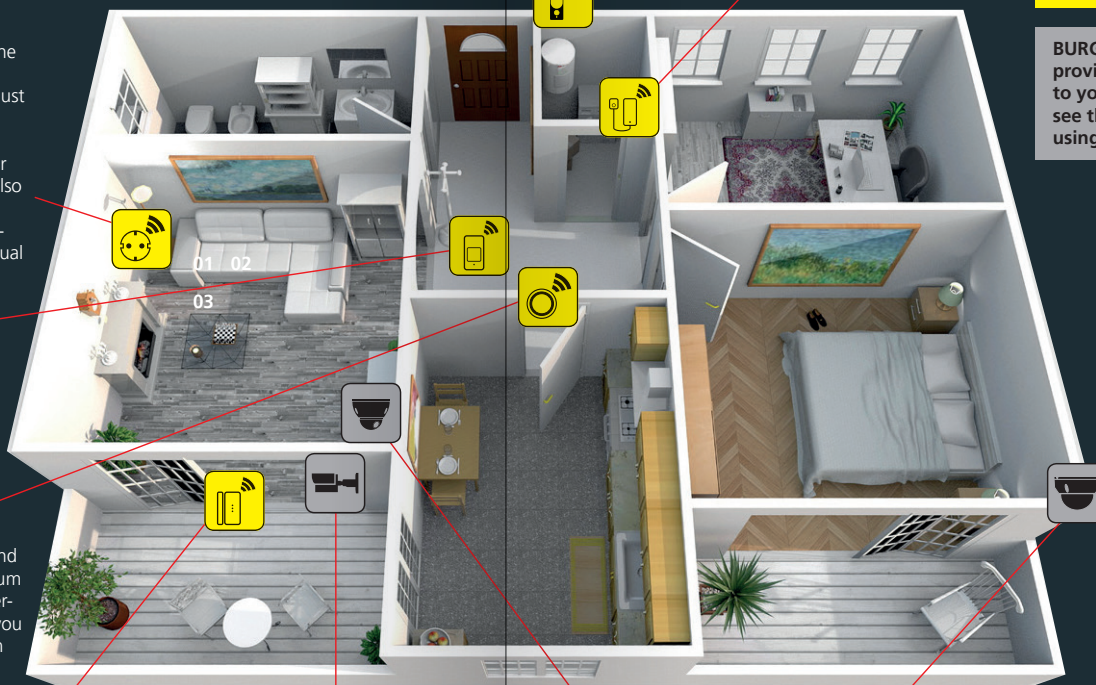

An incident of water damage occurs every 30 seconds in Germany. The Water 2062 sensor detects water ingress and water overflow, for example from a washing machine or dishwasher.

Smart Cloud

The BURGsmart PROTECT series and the BURGcam LIGHT are networked via the Smart Cloud. Simply smart – for your security!

BURGcam video cameras provide an added boost to your security. You can see the video in real time using the BURGcam app.

- 01 Let there be light! The BURGcam LIGHT is an outdoor light, surveillance camera and intercom system in one.
- 02 Monitor entrances, windows and doors using the BURGcam cameras.
- 03 Everything in view: You can access the footage from your cameras at any time using the BURGcam app.

THE PERFECT COMPLEMENT:

BURGcam.

BURGcam

BURGcam LIGHT 3010

15 W LED white light – WiFi camera with intercom function

- 110° field of view enables the entrance area to be kept in view
- 700 lm white light from 21 LEDs
- intercom function with app, via loudspeaker and microphone
- motion detection function
- live image accessible via ALEXA Echo Spot and Echo Show 5/8/10
- easy to set up via smartphone app
- easy installation and alignment due to ball joint mount
- supports recording on up to 128 GB* microSD card
- compatible with the BURGsmart PROTECT series

LIGHT 3010

BURGcam DOME 3030

WiFi camera with manual alignment in the housing

- lens, 2.8 mm (100°)
- 2K-HD Video 4 MP (2560x1440)
- remote access via the BURGcam apps
- local access via the PC's web browser
- IR range up to 20 m
- suitable for outdoor use (IP67)
- professional backlight compensation
- H.265, H.264, MJPEG
- professional solution for the home
- WiFi or LAN operation possible
- supports recording on up to 256 GB* microSD card

DOME 3030

BURGcam BULLET 3040

WiFi camera for indoor and outdoor areas

- lens, 2.8 mm (100°)
- 2K-HD Video 4 MP (2560x1440)
- remote access via the BURGcam apps
- local access via the PC's web browser
- suitable for outdoor use (IP67)
- professional backlight compensation profiWDR (Wide Dynamic Range)
- H.265, H.264, MJPEG
- professional solution for the home
- WiFi or LAN operation possible
- supports recording on up to 256 GB* microSD card

BULLET 3040

SURVEILLANCE CAMERAS

You can easily monitor indoor and outdoor areas via a WiFi camera. The setup is quick and uncomplicated. All you need to do is connect the model to your home WiFi network; a wired connection to the network is not required. All cameras can be operated with the free app and the footage can be called up at any time. For all-round surveillance, the ZOOM model features a rotating pan and tilt zoom. A compact network recorder is recommended for backing up the files.

BURGcam ZOOM 3061

WiFi camera with motorised controllable pan/tilt zoom

- 4x optical, 16x digital zoom
- HD video stream with up to 50 frames per second
- video analysis functions (face detection, virtual trip wire)
- easy to set up via app or WPS
- remote access via the BURGcam Apps or BURG-WÄCHTER Cloud
- local access via the PC's web browser
- suitable for outdoor use (IP66)
- professional backlight compensation HLC/BLC/profiWDR
- H.264/MJPEG video compression
- supports recording on up to 128 GB* microSD card

ZOOM 3061

BURGcam REC 3511

Network recorder for 3.5" HDD

- supports common HD technologies such as IP (ONVIF), CVI, TVI, AHD and analogue cameras
- recordings up to 5 MP
- 4 channel BNC / 6 channel IP recorder
- supports max. 6 TB HDD (SATA)
- hard disk not included
- BNC video analysis functions
- easy operation and setup
- user rights administration
- remote access via the BURGcam apps or BURG-WÄCHTER Cloud
- power supply included

REC 3511

The Smartlock is the clever complement.

Keys are a nuisance. Keys are never to hand when you need them. The smartphone, on the other hand, is always at our side. So why not transform your mobile phone into a key right away? Or your fingerprint? Or your personal pin code? BURG-WÄCHTER's secuENTRY systems allow you to use all of these opening methods. Depending on the model series, opening by passive transponder or radio key is also possible. This is how convenient your new "key freedom" is!

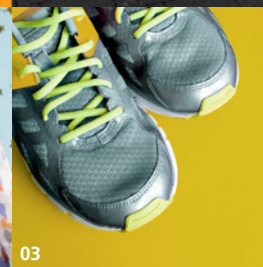

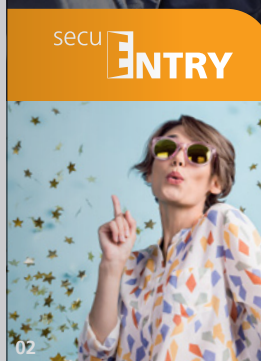

The installation is extremely easy. No drilling or pulling of cables is necessary. Even measuring is not necessary. The Smartlock fits all standard door thicknesses.

secuENTRY KeyApp:
available free of
charge in your store.

- 01 Child's play: Touch the smartphone display and open your front door, the bunch of keys can stay at home!
02 Have fun at the party – forget about "where to put" the keys.
03 Sport with no key is the key – finally!
04 Typical kids – they never forget their mobile phone, but always forget their keys. But your kids will still be able to get in!

ENTRY Home 5001 PIN

- secuENTRY Set for front doors and interior doors

secuENTRY easy 7602 fingerprint

- secuENTRY Set for front doors and interior doors
- available from Q4/2022

ENTRY sE-Key 7713

- radio key
