## Introduction

The TARA PS 7600 manual digital scales determines accurately the weight of suitcases, packets, shopped goods and many other things. To make sure that you use the scales appropriately and to maintain for a long life, please read the instructions for use first.

## Remarks

- To obtain an accurate result, hold the scales firmly by the grip when weighing.
- Do not expose the scales to strong shocks or strong pressure.
- Use no chemical detergents to clean the scales. A soft cloth is suitable for cleaning.

## Operation

### Power up

- Hold the scales vertically and press ON/OFF.
- At first, the display indicates ----, this indication changes to 0.00 after 2 seconds and the tool is ready for use.
- The tool switches off automatically after 30 seconds.
- When you wish to switch the scales off manually, press ON/OFF.

### Select unit of measure

- Press UNIT to select between g, kg, lb and oz.

### Weighing

- Hang the measured item (e.g. suitcase) on the hook.
- When the weight becomes steady, a signal sounds and the measurement result is displayed.

### Stepwise weighing

- If you wish to determine the weight of an item indirectly, e.g. in a container, place this container on the hook first.
- Press the TARE button in order to set the display back to 0.00.
- Only then put the measured item into the container in order to determine its net weight.
- In case the total weight is too high, "ERR" is indicated in the display. Take the items from the hook immediately in order to avoid damage.

## Battery replacement

 This symbol is indicated when the battery power is insufficient. Open the battery compartment at the back and replace the batteries.
